

CENTRALIA COMMUNITY POOL - UPDATE

Centralia School District wanted to provide a summary for why the Centralia Pool was forced to shut down and outline the steps that are being done to get it back up and running. We will continue to provide updates as they are given to us.

- Week of October 4th
- Week of October 11th
- Week of October 18th (see previous updates for these weeks).
- Week of October 25th
- Week of November 1st

- Week of November 8th
 - o The pump repair shop is still waiting to confirm pricing and availability on all repair parts. They will not present any information to the school district until everything has been confirmed. Part of the delay is due to scheduling for specific parts that need to be machined at a machine shop.
 - o The School District is looking at both repair and replacement options when it comes to the pump. Both options will be looked at for cost and timeline.

- Week of November 15th
 - o The pump repair shop presented the school district with the pump repair quote, the repair quote came in at almost twice the cost of a new pump. The repair timeline was 6-7 weeks for the repair then 2 additional weeks to send the pump out for a special coating to protect against the pool chemicals. With that information in mind, the school district has decided to opt for a new pump replacement.
 - o Current lead times for a new pump extend out 10-11 weeks, however the school district feels that a new pump is the best option to provide long term reliability. The vendor will expedite as much as they can to cut that timeline down when possible. The School District will continue to give updates weekly on their progress.

CENTRALIA COMMUNITY POOL - UPDATE

Centralia School District wanted to provide a summary for why the Centralia Pool was forced to shut down and outline the steps that are being done to get it back up and running. We will continue to provide updates as they are given to us.

- Week of October 4th
- Week of October 11th (see previous summary for details from these weeks).
- Week of October 18th
- Week of October 25th

- Week of November 1st
 - o The pump repair shop was able to successfully disassemble the pump and have it fully inspected.
 - o As of Friday afternoon they have not completed their cost summary or timeline for repairs. They were still waiting to hear back on the status of one or two pieces. The school district will follow up with them again next week.

- Week of November 8th
 - o The pump repair shop is still waiting to confirm pricing and availability on all repair parts. They will not present any information to the school district until everything has been confirmed. Part of the delay is due to scheduling for specific parts that need to be machined at a machine shop.
 - o The School District is looking at both repair and replacement options when it comes to the pump. Both options will be looked at for cost and timeline.
